ART & CULTURE ON THE BOULEVARD

## GALLERY PEEK

*A Snapshot of Local Gallery Offerings*

**Christian Duran, "Nest," mixed media on paper, 19" x 24," \$1,250**

In "Nest," part of the exhibit "Apparitions," Duran explores spirituality through the visual integration of the human body and nature. Networks of tree limbs and roots become veins and arteries incorporated within the human anatomy. These images reveal connectedness, interactivity and interchangeability. Duran perceives the similarities of animal and plant circulatory systems as a universal symbol of life and truth. "Apparitions" runs through Oct. 8.
